## Feed the birds

Feeding wild birds gives us enormous pleasure and is a real lifeline for birds

### Vine House Farm

Both the Wildlife Trusts and Vine House Farm wish to reverse the decline of wildlife and enhance the diversity of species of the UK. Through the conservation work that they have undertaken, Vine House Farm is observing increases in bird populations compared to national populations which are either static or declining.

One way for you to discover and re-discover the wonder of nature, is to feed, and provide habitats for, garden birds and other wildlife visitors to your garden. In doing so, you can help to create wildlife corridors, which are vital to ensure our wildlife has enough room to adapt to climate change.

Every purchase from Vine House Farm helps support the work of the Wildlife Trusts. Nationally, £137,000 was generated as rebate on general and wholesale sales for the last year (£406,000 since the partnership began). Shropshire Wildlife Trust earned almost £2,000 from the sales of [Vine House Farm](#) bird food and associated products, many of which are stocked in our [shop](#).
